DIS goes Vis: The Efficiency Breakfast

Arbitration should provide for swift and efficient dispute resolution: businesses shall not be kept from doing business, such as Drone Eye plc and Equatoriana Geoscience Ltd from selling and buying drones.

Efficiency is key under the Arbitration Rules of the German Arbitration Institute (DIS). What services does the DIS offer and what to expect from Rules that provide both “Measures for Increasing Procedural Efficiency” and “Expedited Proceedings”?

We kindly invite you for breakfast and for a vivid discussion about early and efficient resolution of international commercial disputes. Discuss with us which efficiency elements operate under the DIS Rules. Learn more about the DIS and where its users and stakeholders were involved in the drafting process of its rules for increased efficiency, transparency and predictability.
