Venue: CMS, Lennéstraße 7, 10785 Berlin

Serbian-German Arbitration Group: Construction Arbitration in the Western Balkans: Serbia as a Regional Lens

The **BAC/DIS/SAA Arbitration Group** is pleased to invite you to its first event during the Berlin Dispute Resolution Days.

Construction Arbitration in the Western Balkans: Serbia as a Regional Lens will bring together leading practitioners, a quantum expert and an in-house professional to explore some of the key issues shaping construction arbitration across the region. Drawing on real project and dispute experience, the discussion will touch on the interaction between FIDIC provisions and national law, regional features that influence the conduct of construction disputes, and practical questions surrounding enforcement, including the treatment of DAB decisions.

The panel will offer a practical perspective on how these issues play out in complex projects and disputes, while leaving room for a broader discussion of the challenges and developments currently affecting construction arbitration in the Western Balkans.

Following the discussion, join us for a networking reception to continue the conversation and connect with fellow participants.

The DIS/BAC/SAA German-Serbian Arbitration Group

The German-Serbian Arbitration Group brings together practitioners, in-house counsel, arbitrators, and other stakeholders with an interest in arbitration in both countries. The group aims to foster cross-border dialogue, strengthen professional networks, and deepen mutual understanding of arbitration practice in Serbia and Germany. The group organizes regular events to facilitate exchange and promote developments in the field of arbitration. Information about upcoming events and participation details will be shared in advance.
